DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: Paragraph 0043, line 2, "138a" is an error for --138b--.

Appropriate correction is required.

Election/Restrictions

2. Claims 7-10, 18-19, 35-44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4/20/2005.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 13-19, 47-48, 50-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 is, as a result of the incorporation of claims 20, 21, confusing and lacking antecedent and includes repetition of terms without antecedent. A suggested format for the third paragraph of this claim is:

--A piston actuated movement mechanism mounted to the main housing, the piston actuated movement mechanism comprising two parallel mounted pistons and two pivot points secured to the main housing with a movement member extending between

the two pivot points, wherein the pistons each extend a respective arm outward away from the main housing, wherein the arms of the pistons each include a pivot point and wherein the movement member includes a roller, the roller is attached to the arms such that outward movement of each piston arm results in vertical movement of the roller so as to exert an upward force on the expandable room to thereby move the floor of the slide-out from the third level to the second level and wherein inward movement of the piston arm results in a vertical downward movement of the roller so as to permit the floor of the expandable room to move from the second level to the third level.--

Claim 17 lacks antecedent for first and second positions as in --retracted and deployed positions--.

Claim 47, line 5 from the end, “a piston” lacks antecedent to --the piston--.

Claim 50, line 2, “a piston” lacks antecedent to --the piston--. “Level” lacks antecedent to --housing--.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

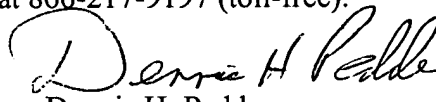

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
